

## INBRED MAIZE LINE PH48V

Robert Alvin Mohror

### Abstract

An inbred maize line, designated PH48V, the plants and seeds of inbred maize  
5 line PH48V, methods for producing a maize plant, either inbred or hybrid, produced by  
crossing the inbred maize line PH48V with itself or with another maize plant, and hybrid  
maize seeds and plants produced by crossing the inbred line PH48V with another maize  
line or plant and to methods for producing a maize plant containing in its genetic  
10 material one or more transgenes and to the transgenic maize plants produced by that  
method. This invention also relates to inbred maize lines derived from inbred maize line  
PH48V, to methods for producing other inbred maize lines derived from inbred maize  
line PH48V and to the inbred maize lines derived by the use of those methods.
